

Press Release

Siemens Brazil optimizes SAP® Customizing, Maintenance and Operations with Conigma™ CCM

Implementation of Conigma CCM for SAP Release-, Change- and Transport-Management allows significant cost savings and quality improvement.

Munich, June 15, 2010 - Galileo Tools GmbH, one of the leading suppliers of software solutions for SAP® change, release and transport management announces, that Siemens Ltda. based in São Paulo / Brazil has decided to implement Conigma CCM. The integration of Conigma CCM with IMS, the Siemens helpdesk solution, results in a complete, highly automated and efficient incident-, change-, release and transport management environment for the SAP system landscapes of Siemens Ltda.

Significantly higher quality and faster implementation of changes combined with more transparency and lower IT costs as well as fulfilling the strict compliance requirements have been the main requirements regarding SAP change management of Siemens Brazil. The implementation of Conigma CCM, which will seamlessly manage the development of SAP changes and automate the transport process across the different SAP landscapes, will help Siemens Ltda. to make a big step forward to fulfill its mission.

“Using Conigma and leveraging its automation capabilities will eliminate a lot of currently manual activities, which often leads to mistakes, misunderstandings and delays in our SAP change and transport process,” said Andreas de la Camp, CIO at Siemens Brazil. “We expect to experience a huge quality improvement in the development of SAP changes as well as always oversee all development tasks and projects in the SAP space. This will enable us to much quicker to react to and fix bottlenecks and process weaknesses.”

„We are very pleased, that we been selected by Siemens Brazil. This is our first customer in Latin America and additionally increases our footprint in Siemens significantly,“ said Josef Huber, General Manager of Galileo Tools GmbH. „More and more companies with complex SAP landscapes recognize the need for highly automated change-, release and transport management processes to lower the cost-of-ownership of their SAP installation and use rare and expensive resources for more productive work.“

About Galileo Tools GmbH

Galileo Tools GmbH, a subsidiary of the Galileo Group AG, is one of the leading providers of Change and Transport Management solutions for SAP®. The Conigma™ Suite integrates administration and processes for further developing, adapting and customizing SAP software seamlessly with existing IT support infrastructure, such as SAP procedures for allocating software (ABAP TMS and Java CMS). These results in significant rationalization potential based on the more efficient, automated development and change processes; in addition, IT compliance initiatives are given optimal support by means of wide-ranging workflow functionalities and the detailed recording of all procedural steps.

The clients of Galileo Tools include LSV (Landwirtschaftliche Sozialversicherung), Postbank, Siemens AG and Züricher Kantonalbank. Galileo Group AG may be found in the Internet under <http://www.galileo-group.de>.
