

OCTOBER 2020

Conigma™ Connect Version 2021

> General availability announced

Munich, 22nd October 2020 – The Galileo Group AG, one of the leading providers of application lifecycle management software, announces the general availability of Conigma™ Connect version 2021.

As a next generation iPaaS product, Conigma™ Connect offers end-point integration processes that are not used by developers and software programmers, but by the specialists who know the business processes best. In the next Conigma™ Connect generation, this is done software-guided via graphical interfaces. These interfaces are used by process specialists and deliver consumer-like usability, so that all users without extensive programming experience can find their way around. In addition, Conigma™ Connect delivers the performance and stability known for all Galileo Group AG products and so important in the enterprise environment, with which data flows can be parallelized. Scalability paired with sophisticated monitoring are the key features of the product, in addition to usability. In addition to the cloud offering, unlimited on-premise usability is also supported.

About Conigma™

In addition to the core product Conigma™ CCM for controlling and managing IT processes for SAP change, release and transport management, the Conigma™ suite also includes Conigma™ QCopy for software recovery after SAP system copies, Conigma™ DevSync for synchronizing parallel SAP development systems and Conigma™4Eclipse for integrating our functionalities in ABAP

OCTOBER 2020

in Eclipse (=SAP ADT) IDE. Congima™ Connect as the leading iPaaS platform for integrating the entire IT factory completes the portfolio.

About Galileo Group AG

Renowned blue-chip clients in Europe, Asia and the Americas – including Mercedes Benz, Talanx, Siemens and the Zürcher Kantonalbank – place their trust in the competence of the Galileo Group with its twin commercial departments of IT Services and Software.

With its SAP® release, change & transport management software Conigma™, the group's subsidiary Galileo Tools sees itself as a market leader in the industrialization of IT operations. It has been proven that over 7% not only of the SAP costs but also throughout the whole IT factory can be saved each year.
