Galileo Group AG again receives SAP Certified Integration Certification regarding SAP® Applications

- > Conigma™ CCM from Galileo makes the industrialization of SAP software change and maintenance processes possible through interoperability with SAP solutions**

Munich, 05/28/2016 – The Galileo Group AG, a leading provider of software solutions for SAP® change, release and transport management, today announced the successful re-certification of Conigma™ CCM. This was carried out on the basis of Conigma Rel. 5.0. It certified that the software thus works integrated with SAP® solutions which make the end-to-end automation of the customer's change, release and transport management possible. Today, customers such as Siemens work on four continents with the Galileo Group solution.

The SAP® Integration and Certification Center has thereby certified that Conigma works in version 5.0 in a manner fully integrated with SAP® modules.

“We are very pleased to announce the successful re-certification of Conigma“, says Malte Klassen, founder and CEO of Galileo Group AG. “The ability of Conigma to take optimal advantage of the business potential of SAP and other solutions is a huge benefit for SAP® customers.”

As a result of the certified integration, SAP® developments and operations can be implemented securely in regard to revision and compliance, and up to 30% of administrative overhead costs can be saved while doing so.

Conigma™ Suite includes not only core product Conigma™ CCM for the control and administration of IT processes for SAP change, release and
