

## MAY 2017

### Conigma™ CCM Release 2017

- > **The latest Conigma™ CCM version offers a comprehensive package of enhancements and new features**

**Munich, 05/27/2016** – The Galileo Group AG, a leading provider of software solutions for SAP change, release and transport management, released Conigma™ CCM version 2017 to the general public today. This version contains many profound developments at all levels of SAP® change, release and transport management.

"The demands and ideas of our customers, which we have built into our new Conigma™, are impressive," says Malte Klassen, CEO of Galileo Group AG. "With the new Conigma™ release, we have expanded and secured our leadership in software for the industrialization of SAP® IT processes and software distribution for a fairly long time."

### Conigma™ CCM Version 2017

Below are descriptions of a few Conigma™ expansions.

#### Profound functional enhancements

- **Improved ATC integration:** now even integration of ATC (=ABAP test cockpit) and of Virtual Forge CodeProfiler into approval steps
- **Enhanced ToC builder:** SAP Transport of Copies (= SAP ToCs) now will be created and managed more simple with a higher level of automation. Processing of customizing and workbench transports also still is possible.
- **Numerous improvements at import containers:** e. g. selective re-start after interruption
- **Additional functionality for dependency checks:** enhancing SAP cross system object lock (= SAP CSOL) of SAP Solution Manager

## MAY 2017

CHARM. Now cross system landscape dependency checks also for customizing are performed. This is completed by flexible approval workflows for customizing and workbench objects.

- **Optimization of predecessor and over taker management:** e. g. by customer specific filters of SAP import queues as well as cross client dependency checks
- **Enhanced SOAP interface:** for even easier integration of customer specific processes and infrastructure
- **SAP Solution Manager ChaRM integration:** enables SAP Solution Manager ChaRM customers to use Conigma™ CCMs powerful transport automation engine
- **Improved integration of translation engines:** by interfaces to Google Translate and DeepL

Conigma™ Suite includes not only core product Conigma™ CCM for the control and administration of IT processes for SAP change, release and transport management, but also Conigma™ QCOPY for software recovery based on SAP system copies and Conigma™ DEVSYNC for the synchronization of parallel SAP development systems.

### About Galileo Group AG

Renowned blue-chip clients in Europe, Asia and the Americas – including Mercedes Benz, Talanx, Siemens and the Zürcher Kantonalbank – place their trust in the competence of the Galileo Group with its twin commercial departments of IT Services and Software.

With its SAP® release, change & transport management software Conigma™, the group's subsidiary Galileo Tools sees itself as a market leader in the industrialization of SAP operations. It has been proven that over 7% of SAP costs can be saved each year.
