

FEBRUARY 2018

Entering the New Year with an Excellent Foundation

- > **Significant increase in earnings based on healthy developments in software activities**

Munich, 14 February 2018 – The Galileo Group AG, one of the leading providers of software solutions for release, change & transport management for SAP®, announces that the group's earnings for the year 2017 shows a 2-digit percentage increase over the previous year.

This result means that the Galileo Group has significantly exceeded the industry's general growth forecast, and consequently Galileo has an outstanding foundation for the further development of its business activities in 2018.

The increased benefits are rooted in the successful introduction of Release 2018 of Conigma™ CCM. This new version provides significant improvements in the realm of automating SAP development and customizing with the focus on change, release and transport management. The new features include significant enhancements of Conigma's famous import containers for SAP change and transport management (=SAP CTS) as well as further improvements within the area of user experience.

"Our Conigma™ software has enabled us to win new interesting major clients" explains Malte Klassen, CEO of Galileo Group AG. "International Conigma™ rollouts at corporations with up to 400.000 employees have been special high lights of 2017 as well as implementation of our products at SMEs with not much more than 10 IT specialists".

FEBRUARY 2018

Conigma™ Suite includes not only core product Conigma™ CCM for the control and administration of IT processes for SAP change, release and transport management, but also Conigma™ QCOPY for software recovery based on SAP system copies and Conigma™ DEVSYNC for the synchronization of parallel SAP development systems.

About Galileo Group AG

Renowned blue-chip clients in Europe, Asia and the Americas – including Mercedes Benz, Talanx, Siemens and the Zürcher Kantonalbank – place their trust in the competence of the Galileo Group with its twin commercial departments of IT Services and Software.

With its SAP® release, change & transport management software Conigma™, the group's subsidiary Galileo Tools sees itself as a market leader in the industrialization of SAP operations. It has been proven that over 7% of SAP costs can be saved each year.
